

Cyclists Needed!

Be a Tandem Captain for a Child with a Visual Impairment

What We're Looking For

We're seeking skilled cyclists who want to share their love of biking with children and teens who have a visual impairment. Experience working with children or individuals with disabilities is a plus, but not required. What matters most is a positive attitude!

DGCKids provides all tandem bikes and training, so volunteers feel confident and prepared before their first ride.

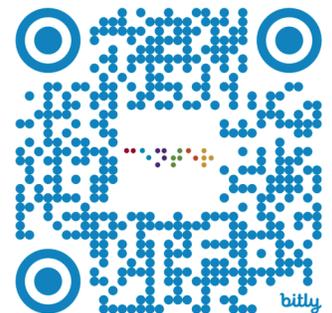

Tandem Adventurers meets every other week from **April through September** on Thursday evenings or Saturday mornings. Each ride is two hours and covers 15–20 miles. Solo riders are welcome too!

Help a Child with a Visual Impairment Experience the Joy of Cycling!

Ready to roll?
